

Murrysville Deer Management Program FAQ (Frequently Asked Questions)

1. There is currently a waiting list to participate. If interested after reading the requirements please email your name, address, phone number to: Amy Wengrzyn at awengrzyn@murrysville.com to be placed on the waiting list.
2. 7 parks currently are in the program: Duff, MCP, Townsend, Pleasant Valley, Verner, Kellman/Skena, Pin Oak "Bear Hollow".
3. Must hunt an average of 6 times a season.
4. Must harvest at least one deer every 2 years.
5. Must report all harvested deer to coordinator with copy of doe tag.
6. Anyone soliciting to hunt on private property without authorization from the Recreation Director will be immediately terminated from the program.
7. New hunters will be called each August to be added to the program. The number of new hunters varies each year. Murrysville residents have preference.
8. Hunters are required to attend a qualification meeting each year before the season begins to complete paperwork, pay the annual fee of \$35.00, and qualify with archery equipment to ensure safety and accuracy of gear.

The Murrysville Recreation Department operates a Deer Management Program and this program was created to manage the growing population of deer in our local parks. In order for the program to be successful our hunters need to be active in the parks. We require our hunters to hunt a minimum of 6 times per season and failure to do so will result in removal from the program. Each park has a park coordinator that is in charge of their said park. As a hunter it is your job to communicate with your park coordinator about when you are in the park and when you have killed a deer. If you have any questions during the season that your park coordinator can't answer please feel free to contact the Recreation Department.
